Education For All
Towards Quality with Equity

INDIA

Gyanome Vision and Mission

Vision:

Gyanome's vision is to transform the delivery of education, to build a better academic foundation in English, Science and Math's.

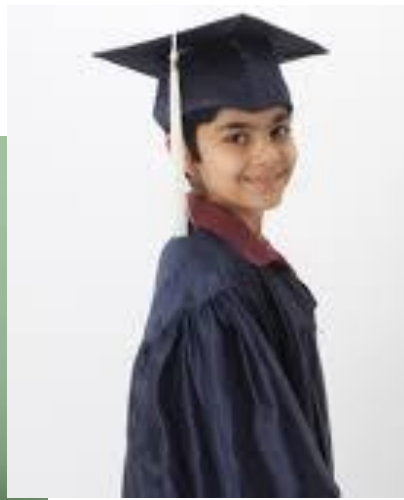

Mission:

- ▶ Gyanome mission is to deliver quality education to the society using technologies and creating awareness about Maths, Science and English
- ▶ Reaching 100% literacy in our country
- ▶ Gyanome focuses on public and Private schools in rural and urban area to develop quality education

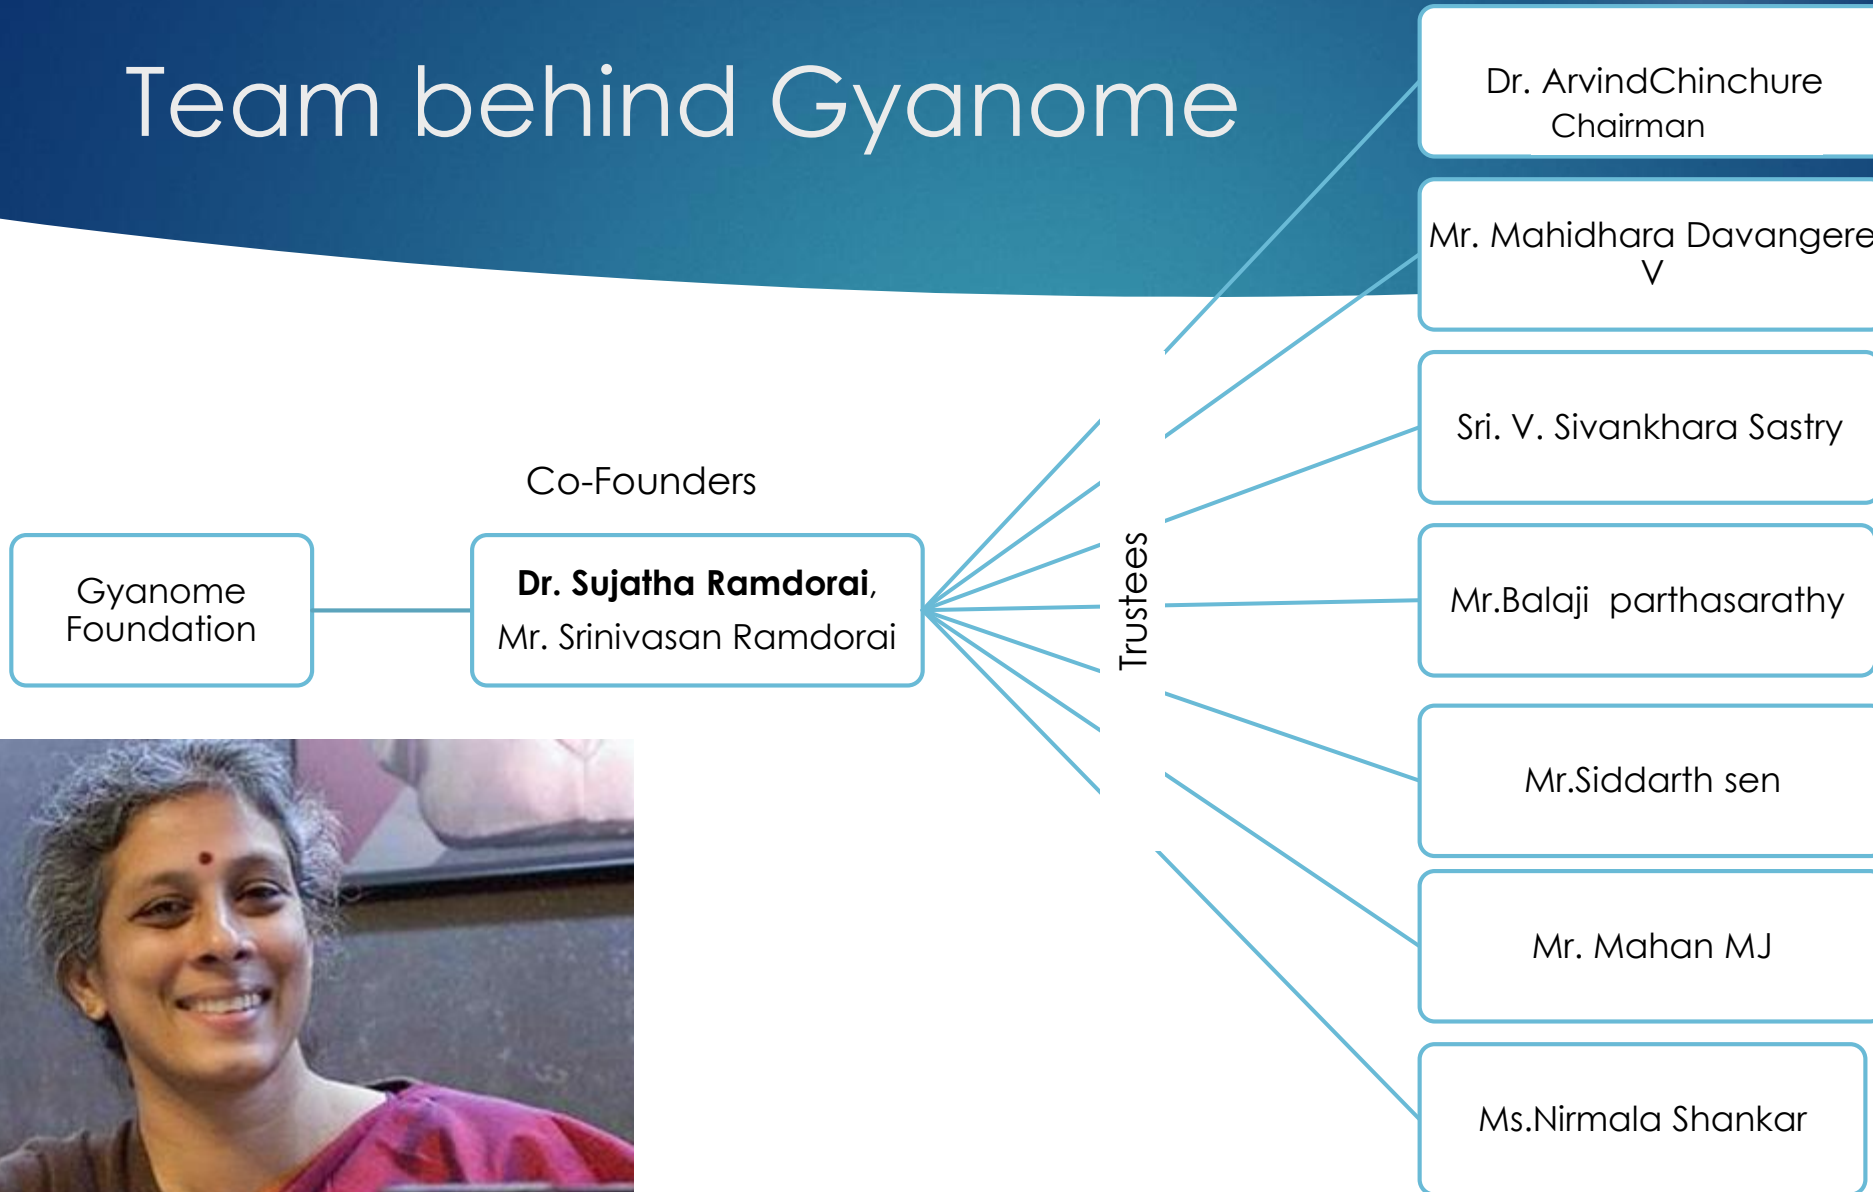

What is Gyanome

- Gyanome is a platform for teaching the fundamentals of school math's and science to all the children of India.
- Gyanome is a non- profit organization
- It deals with schools for better improvement of education

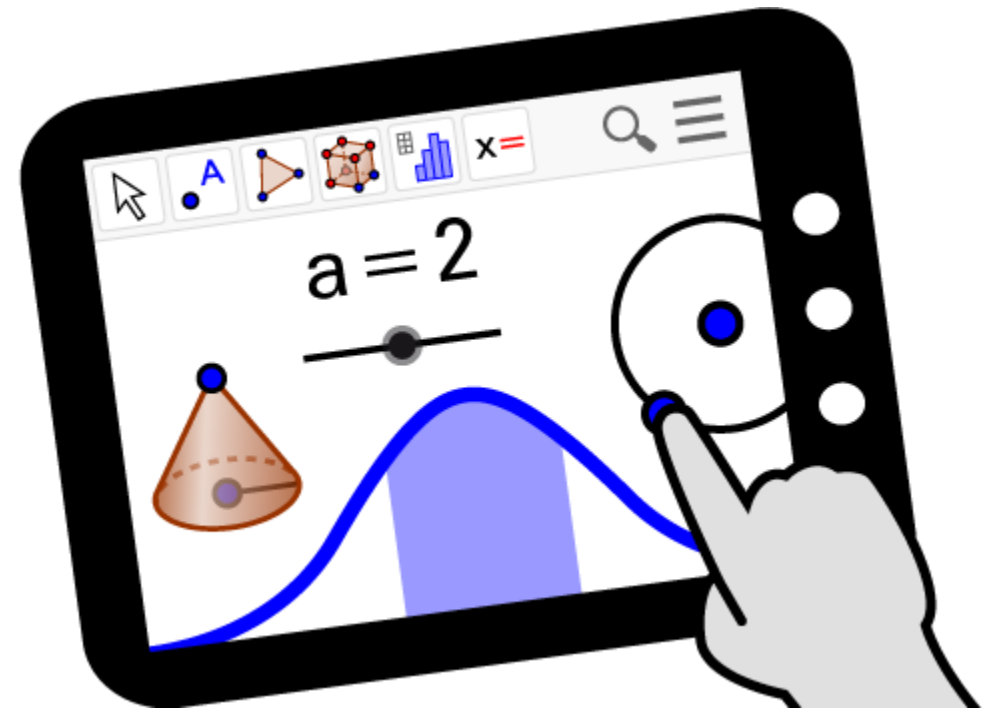

Team behind Gyanome

What Gyanome Does

- ▶ Creating basic content around books published by NCERT as the template, emphasizing the ideas and concepts.
- ▶ Creating additional resources such as Geogebra applets to supplement the content.
- ▶ Facilitating scientist-student interactions online and offline, including the asking and answering of questions, hangouts etc.

Achievements of Gyanome

- ▶ Gyanome Foundation - creating online content of NCERT mathematics curriculum in ENGLISH, KANNADA, HINDI, TAMIL, BENGALI and ASSAMESE
- ▶ Organized a talk from Dr Ken Ono, on Srinivas Ramanujam and his life in IIT, Bangalore
- ▶ Has conducted various Google hangouts with various mathematicians and made it available for general public through GYANOME YOUTUBE channel and GYANOME website
- ▶ Gyanome Foundation signed MOU with **IMAGINARY** Project in **Germany**, to enable Gyanome to participate in Mathematics Communication for broad public.

Future plans

- ▶ Gyanome is in the process of setting up a Math Park at the campus of **Agastya International Foundation in Kuppam**. The Math Park will have both outdoor and indoor exhibits spread over one acre. It is currently in the planning process with comprehensive plans for construction, installation and thematic implementation starting in 2017
- ▶ **Video lectures in vernacular languages** of all the mathematics content translated and made available to general public
